Oregon Republican Party C00153031

This memo is regarding your letter; Feb. Monthly Report dated 11-19-03

The Oregon Republican Party staff did not spend 25% of their time working on Federal Election activity for the month of Jan. This was the first monthly of a new administration and time was spent getting ready to go into state session. Under the new BCRA law the party had not been informed of how payroll should be paid when employees work less than 25% of their time on federal activity.
